

Přehled nepedagogicky zaměřené publikační činnosti Katedry matematiky FSv ČVUT v Praze v období 2000-2009

V období 2000-2009 pracovníci Katedry matematiky FSv ČVUT v Praze publikovali:

- **1 monografii** s poměrným počtem stran 162
- **3 kapitoly v knihách** s poměrným počtem stran 77
- **61 článků v impaktovaných časopisech** s celkovým poměrným počtem stran 661
- **57 článků v neimpaktovaných mezinárodně recenzovaných časopisech** (v angličtině, s ISSN) s celkovým poměrným počtem stran 585
- 20 statí v neimpaktovaných mezinárodně recenzovaných sbornících (v angličtině) s celkovým poměrným počtem stran 83
- asi 500 ostatních publikací

Poznámka: **Poměrný počet stran publikace** je dán vztahem a/p , kde

a = počet autorů publikace, jež jsou pracovníky katedry matematiky/počet autorů publikace

p = počet stran publikace

M – x(y) ... monografie – počet stran (počet publikací)
 KK – x(y) ... kapitola v knize – počet stran (počet publikací)
 IP – x(y) ... impaktovaná publikace – počet stran (počet publikací)
 NMRP – x(y) ... neimpakt. mezinárodně recenz. časopis – počet stran (počet publikací)
 MRS – x(y) ... mezinárodně recenzovaný sborník – počet stran (počet publikací)
 OP ... počet ostatních publikací

* ... kvůli spoluautorství členů katedry je menší než součet čísel (y) ve sloupci

** ... počet stran = S (celkový počet stran publikace/počet autorů publikace)
